

100,000 Head Canadian Stock Soon to Be on Way To Soviet Russia

OTTAWA HOLDS KEY TO RUSSIA CATTLE DEALS

Whole Question is Now up For Government Sanction

OTTAWA, Jan. 5.—Complicated negotiations which may result in 100,000 healthy well-bred cattle from western Canada making a long trip to Russia went on Wednesday. Conflicting statements were made as to the chances of putting through the deal which is backed by a syndicate represented in Ottawa by G. G. Serreau and J. H. Macdonald of Winnipeg but it was apparent the next step must be a decision from the Canadian government.

The government now has before it a memorandum of agreement drawn up between the syndicate and the Soviet government, terms of which were settled in Moscow by Serreau and Soviet officials. Wednesday the syndicate is expected to make a decision from the Russian government is not in favor of the scheme.

GETS MOSCOW WORD

"Nothing has transpired since my return to Canada," said the syndicate in any way that the government of the U.S.S.R. would consider favorably the terms as set out in the memorandum. Serreau has since my return received a communication from Moscow indicating they have in the past held their attitude with respect to the transaction. The syndicate is expected before the Canadian government and it is expected a decision will be reached.

From circles close to the government it was learned that the syndicate involved an extension of a credit of \$1,000,000 by the government and a guarantee to reimburse the syndicate in the event of failure of the Russian government to comply with the terms of the agreement.

OBJECTIONABLE FEATURE

This feature, it is understood, was objectionable from the point of view of the government and, in addition, would make it impossible for the deal to go through.

Four since the United States tariff shut off the export of Canadian cattle to that country the government has been looking for a new outlet for cattle.

CONSIDERABLE PROGRESS MADE

In developing a market in the United Kingdom and movement of surplus cattle from Canada to that country has been aided by the Canada-Korea trade agreement made in 1928. The syndicate has been making considerable progress in developing a market in the United Kingdom and movement of surplus cattle from Canada to that country has been aided by the Canada-Korea trade agreement made in 1928.

READY TO BUY

In a statement, his first since his arrival in Ottawa a week ago, Serreau said he went to Moscow early in November and found the Russian government prepared to buy a quantity of cattle from Canada.

THE STOCK REQUIRED WOULD BE

Mostly females of both dairy and beef types including a few head of males and females, both varieties, however, would predominate. The cattle would be bred on the farms in the presence of the inspector of the cattle service.

THE FARMERS WOULD RECEIVE

Full purchase price for the cattle. The farmers would receive the full purchase price for the cattle. The farmers would receive the full purchase price for the cattle.

Sister Assist Her

Rose Froude, retired, celebrated opera prima donna, is shown with her sister, Carole, also an opera singer, as they practiced the roles they will enact together in the opera "La Gioconda" at the Metropolitan, New York. This is the first time in the history of opera that two sisters have appeared together in leading roles.

RAILWAYMEN SEND PLEA TO BESSBOROUGH

Review House of Labor is Object Sought in a Petition

TORONTO, Jan. 5.—A petition has been forwarded to Earl Bessborough, governor-general, on behalf of some 1,000 railway men and firemen and 14,000 conductors, brakemen and other personnel, in readiness of house of employment so that there will be a more equitable distribution of work on the railways.

The petition was sent by J. E. Weldon, K.C., of Toronto for the Canadian re-employment railwaymen's association, which has branches in many centres in Canada and which declares approximately half the railway employees in Canada are out of work.

It pointed out some employees work as much as 80 hours a week. One hundred miles, in freight service, is considered equivalent to an eight-hour day. It is requested that the house of employment be restricted to five days a week.

As the Canadian people own the Canadian National, and because the government has great influence with the Canadian Pacific, it is suggested His Excellency ask the C.P.R. to adopt the plan outlined and if unable to proceed by direct negotiation, to forward the Industrial Disputes act.

When the chief of government possesses the necessary strength and is determined to stick to the plan, he can wrench the tiller from his hands, but during the winter months, when the winter weather is so severe, it is suggested that the government should be asked to take the matter into its own hands.

But even if it was not prompted by these reasons, I would ask the same way because it would be a great relief to the railwaymen. I know what a family suffers when one of its members is unemployed. I know from personal experience that the unemployed are cold, therefore, I feel most deeply all responsibility of appeal and solicitation to the government.

The system of political and economic palliatives make individual and national existence eventually worse. The railwaymen are a class of people who are not only a source of pride and respect but also a source of pride and respect.

They are a class of people who are not only a source of pride and respect but also a source of pride and respect. They are a class of people who are not only a source of pride and respect but also a source of pride and respect.

Green Advocates "Economic Force"

WASHINGTON, Jan. 5.—The use of force, according to the Green advocates, is necessary wherever men are organized to bring about establishment of a shorter work week in the United States.

The Green advocates, led by William Green, president of the United Brotherhood of Carpenters and Joiners of America, are making a U.S. senate judiciary sub-committee the Black bill to establish the five-day week and six-hour day in all industries.

Legislature SASKATCHEWAN PLANS AND FOR AGRICULTURIST

Abandonment of \$1,000,000
Charges may be
Effectuated

REGINA, Sask. Jan. 5.—Coupled with announcement of concessions to debtors obligated to the Farm Loans Board, Premier J. T. Anderson last night forecast general action by commercial lending institutions in extending interest payments and postponing principal payments. The Farm Loans Board concessions, which the legislature will be called upon to endorse, are in brief:

- 1.—Cancellation of interest for one year, payable on the 15 months between Nov. 1, 1931 and Nov. 1, 1932.
- 2.—Amortization of interest in arrears prior to Nov. 1, 1931 or 1932, in years prior to Nov. 1, 1932, over 10 years, with interest payable at the rate of 6 1/2 per cent.
- 3.—Amortization of principal arrears prior to Nov. 1, 1932, over 10 years, with interest payable at the rate of 6 1/2 per cent.

READY FOR ACTION
Dealing with the question of general action by mortgage and loan companies, the premier announced that they were ready to take action similar to that announced for the Farm Loans Board. In addition to making individual loans, he said, the companies were "prepared to introduce a system of extending arrears of principal and postponing payments of principal."

Abandonment of a year's interest on \$1,000,000 payable to the farm loans board by more than 500 farmers of Saskatchewan. The board has about \$15,000,000 out on loans at 6 1/2 per cent. The interest figures out to around \$1,000,000.

TO GET CREDIT
Those farmers who have paid in full the year's interest payments receive for their payments credit on principal reduction of \$1,000,000. The amount of interest arrears, prior to Nov. 1, 1931, payable to the board is \$1,375,731, which amount will now be payable in five annual payments of \$275,146.22 each, the amount owing the board in principal arrears, prior to Nov. 1, 1931, being \$979,378, which amount will now be amortized over ten years.

First payments under the amortization will be made on Jan. 1, 1933.

TORONTO, Jan. 5.—Proposed abandonment by the legislature of a year's interest on \$1,000,000 payable to the Farm Loans Board by more than 500 farmers of Saskatchewan, has been met with a strong reaction in the banking circles here as not interested in the matter. The reaction was expressed by Premier Anderson, who said that the legislature was not to be taken in by the "bankers' plot" for this step to lessen the plight of the farmers brought about by the lending of the bank money to the farmers. The premier stated that it was not the intention of the legislature to make a ruling affecting the Saskatchewan Farm Loans Board.

"It has nothing to do with the banks," it was pointed out. "It has nothing to do with the banks," it was pointed out. "It has nothing to do with the banks," it was pointed out.

MONTREAL, Jan. 5.—Western branches of the Royal Trust Company are co-operating in solving the problem of the Western farmer. P. J. Jett, general manager of the company, declared today that other firms said to be co-operating in the same line. The company is offering loans of \$1,000,000 to farmers of arrears of interest and postponing payments of principal. The company is offering loans of \$1,000,000 to farmers of arrears of interest and postponing payments of principal.

Depression Scars Fading Rapidly Statistics Show

Continued from Page One
other: "What possibility of recovery while construction is dead."

"Some people argue that depression is incurable until public works are built and others see no chance of improvement unless public works are increased."

"Further items in the catalog of famous obstacles: 'Tariff protection, high problems still abound, chiefly that of purchasing power.'"

"Each in turn, however, will clear away. Already many of these bad situations are more fully corrected than a difference story."

"Another example: The depressionists ask how business can ever revive while the farmer is worse off than the wage worker. That sounds plausible but actual statistics tell a different story."

"In spite of temporary discrepancies, the monthly incomes of farm districts and factory workers have kept close in step for more than ten years."

"We measure the farming income by agricultural marketings multiplied by their prices; industrial workers' income by payrolls. The two groups have fared alike in both fortune and misfortune. Farming regions are not going to block national recovery, but share in it. Furthermore, some form of proration to fix domestic prices is probable."

In brief: We will not ride swiftly out of the depression on the high seas of recovery. Instead, we will climb slowly and painstakingly upward, now helped by textiles, now by shoes, now by some other industry.

Each one will regain footing on the other until finally a 1933 roll along general business will be moving forward at a higher rate."

some habit of his political life. During his third term he was elected governor of the state. He was elected governor of the state. He was elected governor of the state.

On October 4, 1880, Mr. Coolidge married Miss Grace A. Goodhue of his bride in a making a apartment house in Northampton. He was married in Northampton. He was married in Northampton.

Two years later he was back at "Benson Hill" as senator. As his second term was ending there occurred one of the political accidents which shaped his career. Levi I. Greenwood, of Gardner, was "booked" to go higher, but because of his antagonism of the suffragists, they made a determined campaign against him and he was defeated for re-election.

Few of the State House attaches thought the quiet, unassuming senator for Northampton would agree to the presidency of that august body. But the senator had ideas of his own. Hearing of Greenwood's defeat he took the earliest train for Boston and before noon of the next day he had lived up enough of the party leaders to lead the presidency, which was his with no further opposition.

His acceptance speech, Mr. Coolidge made when re-elected president of the Senate became a classic in Massachusetts statecraft. It was, in his speech of acceptance the preceding year, he used two phrases which afterward became to be regarded by his friends as his credo: "Do the day's work," and "Be true."

POLITICAL LUCK
Another political accident which helped to shape his career occurred in 1913, when he was elected to the Senate. He was elected to the Senate. He was elected to the Senate.

He was elected to the Senate. He was elected to the Senate. He was elected to the Senate. He was elected to the Senate. He was elected to the Senate.

SCORES FLEE BEFORE FLOOD IN MISSOURI

St. Francis River Pours
Through Four Levees
Breaks

MEMPHIS, Tenn., Jan. 8.—Scores of families fled today before waters that poured through four levee breaks along the St. Francis river in southeast Missouri and northeast Arkansas.

Two gaps in the levee on the Missouri side of the river sent water over approximately 4000 acres of lowlands. The second of the breaks, 3 miles north of Kennett, sent water without warning but Missouri National Guard soldiers started evacuating families in safety. No lives were lost, but some livestock perished.

Another crevasse developed at state line boundary between Arkansas and Missouri. It threatened to overflow a 35-acre mill area in Arkansas. Water poured through a fourth opening at Bell, Ark., covering a wide area of farms and homes.

Awakened from their sleep by the state salesmen, lowland people fled to the boats they had held in readiness. The flight was orderly. Many farmers joined their families with their cattle and horses.

Wednesday afternoon, threatened to overflow large sections of Crockett county, Mo. The water rose so far south as Greene County, Ark., covering a wide area of farms and homes.

Permanent Character

There is iron and rock in the veins of Canada, as well as gold and silver. The stern and heroic qualities that conquered a wilderness and built a Dominion, united from Ocean to Ocean, still predominate in Canadian character. There is a permanency in this country that grows out of that character. It is expressed in institutions as well as individual craftsmanship and frugal industry.

The Bank of Montreal was the first permanent Bank in Canada. Having successfully co-operated with this country's people and business through the ups and downs of 115 years, the Bank today faces the future firm in its faith in the permanency of Canada's progress and the character and resourcefulness of the Canadian people.
